Graviola Simaruba Capsules

Graviola increases T cells that are lymphocytes in the body which kill cancer cells and other damaged cells. Graviola is an "annonaceous acetogenin" that has antitumorous and antiprotozoal capabilities which assist in shrinking tumors.

Graviola helps regulate blood sugar. It helped protect the stomach's mucous lining. It also helped prevent free radical damage to the digestive tract. Graviola is considered an alternative treatment for herpes.

Simaruba is an effective remedy for inflammation of the colon. This amazing green medicine also kills leukemia cells, reduces tumor growth, destroys both bacteria and viruses, promotes menstruation, and reduces pain and fever.

Ashwagandha reduces blood sugar levels through its effects on insulin secretion and sensitivity. It promotes the death of tumor cells and may be effective against several types of cancer.
