CURCUMIN C3 COMPLEX CAPSULES

Turmeric is a basic ingredient in the Indian Culinary space. Almost every Indian food is said to have turmeric as it naturally comes with a lot of medicinal properties. Thanks to Curcumin (an active compound of Turmeric) that comes with rich antioxidant properties essential to keep pathogens and germs in check. Skin disorders, inflammation, bone & joint dysfunctions are said to be in check with the use of Curcumin C3, Bioperine, Lycopene beta and Grape seed extract Capsules. Bioperine extract and its constituents exhibit anti-inflammatory, antioxidant and anticancer activities and enhances the absorption of curcumin. Lycopene: A Powerful Antioxidant to Help Prevent Cancer and Keep Your Heart Healthy. Multiple studies indicate that curcumin can reduce the growth of cancerous cells and inhibit the growth of tumors. Curcumin is a potent anti-inflammatory compound and effective in treating rheumatoid arthritis. Curcumin boosts brain-derived neurotrophic factor (BDNF) & can work as an anime depressant. Curcumin has become very popular as an anti-aging supplement.

Curcumin C3, Bioperine, Lycopene beta and Grape seed extract Capsules

Curcumin possesses powerful antioxidant and anti-inflammatory properties. Curcumin has ability to relieve inflammation in the body by blocking the activity of several enzymes involved in the inflammatory process. With Anti-inflammatory and antioxidant properties, curcumin help keep your skin glowing and healthy and help neutralize free radicals to prevent cell damage. It may also accelerate wound healing and improve collagen deposition. Curcumin helps maintain normal blood sugar levels to prevent serious side effects. It works by reducing glucose production, decreasing inflammation, stimulating glucose uptake and increasing the secretion of insulin from the pancreas. Curcumin can successfully inhibit platelet aggregation to reduce the risk of blood clot formation and minimize the risk of adverse effects on health.

Curcumin may help boost heart health by keeping cholesterol levels in check. Curcumin is able to protect the liver against damage and disease, allowing it to continue working to remove toxins and harmful compounds from the body, Curcumin improve memory, reduce oxidative damage and enhance cognition.

Bioperine extract and its constituents exhibit anti-inflammatory, antioxidant and anticancer activities and enhances the absorption of curcumin. Lycopene: A Powerful Antioxidant to Help Prevent Cancer and Keep Your Heart Healthy. Multiple studies indicate that curcumin can reduce the growth of cancerous cells and inhibit the growth of tumors. Curcumin is a potent anti-inflammatory compound and effective in treating rheumatoid arthritis. Curcumin boosts brain-derived neurotrophic factor (BDNF) and can work as an anxiolytic. curcumin has become very popular as an anti-aging supplement.
