# Siberian Chaga Mushroom

Siberian Chaga Mushroom has one of the highest ORAC scores of any food! ORAC stands for “Oxygen Radical Absorbent Capacity.” The higher the ORAC value, the better a food’s ability to protect the body from disease-causing free radicals. It also means that chaga mushrooms are one of the best sources of antioxidants, with an ORAC value of 146,700.

Chaga can inhibit cancer progression. chaga extract is able to prevent liver cancer cell growth, making it a potential treatment for cancer in the liver. Chaga mushrooms have helped to boost the immune system by increasing the production of certain immune cells including interleukin 6 (IL-6) as well as T lymphocytes.

Chaga mushroom appears to have anti-viral abilities affect on human immunodeficiency virus (HIV) type 1 and hepatitis C virus. It improves physical endurance by increasing the glycogen (fuel) content of both muscles and liver, while decreasing lactic acid levels in the bloodstream. Put that all together and it’s a recipe for less fatigue and better endurance.
